CURRICULUM VITAE

Name : ADEYEMO OLUSEYE SUNDAY

Address : NO 10, DAVID ST, OFF HALLELUYAH ST, Estate 13,
RCCG Redemption camp
KM 46, Lagos – Ibadan Expressway,
Mowe, Ogun state

E-mail address: oluseyefoluke@yahoo.com and Sunday.Adeyemo@bakerhughes.com

Nationality : NIGERIAN

Marital status: MARRIED

Telephone No: +234-803-8736546, +234-8163479697

EDUCATIONAL BACKGROUND

YEAR	SCHOOL/INSTITUTE
1992 to 1994	THE POLYTECHNIC IBADAN Higher National Diploma (**HND)** with **UPPER CREDIT GRADE** in MECHANICAL ENGINEERING
1987 to 1990	THE POLYTECHNIC IBADAN National Diploma (**ND)** with **UPPER CREDIT GRADE** in MECHANICAL ENGINEERING
Certification:	OPITO valid Until 2023

PROFESSIONNAL TRAINING

	COURSE TITLE	PROVIDER	DATE
1	HEAVY DUTY GAS TURBINE COMMISIONING AND FUNCTIONAL TEST	GE Oil & Gas Training Academy, Florence, Italy	NOVEMBER 2018
2	PROJECT MANAGEMENT PROFESSIONAL (PMP) TRAINING	Simplilearn	AUGUST 2016
3	FUNDAMENTAL OF RESIDENT ENGINEER	GE Oil & Gas Training Academy, Florence, Italy	NOVEMBER 2016
4	FOUNDATION OF LEADERSHIP	GE Nairobi, Kenya	NOVEMBER 2015
5	SITE MANAGEMENT FUNDAMENTAL	GE Oil & Gas Training Academy, Florence, Italy	SEPTEMBER 2015
6	FIELD SERVICE ENGINEER (FSE) CERTIFICATION	GE Oil & Gas Training Academy, Florence, Italy	JANUARY 2014
7	HEAVY DUTY GAS TURBINE (MAINTENANCE) FUNDAMENTAL TRAINING	GE Oil & Gas Factory facility, Firenze, Italy	June 23rd –July 7th 2012
8	EHS & SECURITY LEADERSHIP (SUPERVISORS) TRAINING	Port-Harcourt	March 2009

9	CERTIFIED (FIELD SERVICE ENGINEER) ON GE ENERGY PRODUCT/EQUIPMENT INSTALLATION & MAITENANCE INTERVENTION	BELFORT (France)	7th Oct - 9th Nov 2006

SUMMARY

For the past 20 years, I have been working in Nigeria and Overseas countries in mechanical discipline in onshore and offshore facilities of Power Generation and Oil & Gas industries respectively.

Presently (2011 – till date) as Lead Customer Field Service Engineer, General Electric Oil & Gas (Now BAKER HUGHES).

As Heavy-Duty Gas Turbine Resident Engineer in TOTAL E & P Angola, 2016 – till date

Acted in capacity of a Mechanical Team Leader (team of about 11 Mechanical FSE of different nationals and about 30 ARCO indigenous contractor personnel) on Nigeria Agip Oil Company CSA project, for the day to day running and maintenance intervention of all heavy-duty gas turbines (Rotating Equipment) of the company three different installation facilities (Ob/ob, Kwale and Ebocha). This involved routine and numerous planned and unplanned outages/inspections (Combustion Inspections, Liner and Transitions Piece Inspection, Hot Gas Inspection and Major Inspection respectively).

As, Mechanical Technical Advisor with Granite Services International for over 4 years (2006 -2011) worked partly in the Power generation business unit of GE Energy Services, sub-Sahara Africa region and GE Oil & Gas business; in the Installation of heavy-duty gas turbines (Rotating Equipment) for Nigeria Independent Power Project and carried out leading/supervisory roles in turnaround maintenances of heavy-duty gas turbines, within Nigeria and outside the shores of Nigeria.

Worked as Senior Mechanical Technician with ARCO Petrochemical for over 7 years (1999 – 2006). I worked in conjunction with Nuovo Pignone (a General Electric company) personnel on Nigeria Agip Oil Company facility (Ob/ob, Kwale and Ebocha locations) in the maintenance (planned and unplanned) intervention of all, heavy duty gas turbine and compressors (Rotating Equipment)

I have a good cumulative/extensive technical and leadership experience in addition with relevant technical and leadership trainings on maintenance planning and execution of Heavy-Duty Gas Turbines (Rotating Equipment)

During my various employments, I have had the opportunities to work closely with the technicians and engineers from other disciplines and nationalities. Also, my record is outstanding in EHS (environmental, health & safety), human relations and leadership ability.

COMPUTER LITERACY:
Proficient in the use of Microsoft suite of applications

Explore below, the detailed history of my working experience and other useful information:

WORKING EXPERIENCE:

1- CUSTOMER FIELD SERVICE ENGINEER GE Oil & Gas

Joined the employment of General Electric Oil & Gas (**Now BAKER HUGHES**)
August 2011 till date

PROJECT:

2ND March 2016 – 30th September 2021
Resident Engineer: TOTAL Exploration & Production FPSO, GIRASSOL, Angola
Planned and unplanned maintenance activities/intervention and technical advice service for GE heavy duties gas turbines (MS5001 & MS5002C) on the offshore facility.

9th February 2019 – 15th March 2019
Site Manager: TOTAL Exploration & Production FPSO, GIRASSOL, Angola, MS5002C THPB (Turbo-compressor) gas turbine Liner and Transition Piece Inspection

1st August 2018 – 23rd October 2018
Day shift Mechanical lead: TOTAL Exploration & Production FPSO, GIRASSOL, Angola, MS5001PA TGB (Turbo-generator) gas turbine Major inspection

30TH August 2016 – 17TH September 2016
Night shift Mechanical lead: TOTAL Exploration & Production FPSO, GIRASSOL, Angola, MS5001PA TGC gas turbine Hot Gas Path Inspection

2nd March 2016 – 15th April 2016
Day shift Mechanical lead: TOTAL Exploration & Production FPSO, GIRASSOL, Angola, MS5002C THPB gas turbine Major inspection

August 2011- 30TH July 2015
Resident Engineer/Team leader: Nigeria Agip Oil Company CSA project, Gas Recycling Plant OB/OB Rivers state, Nigeria. Day-to-Day maintenance intervention, maintenance planning and daily routine check; reliability/monitoring of all running units (PGT10/2, MS1002, MS3002J & MS5001PA) on site and contractor (ARCO) manpower coordination.

26TH August – 13TH Nov 2015
Kaduna power plant, Kaduna
Mechanical Lead for the installation of 8 units of MS5001PA GE heavy duty gas turbine

6th April – 4th May 2015
MEGPL & EGLNG, Bioko Island, Equatorial Guniea
LTPI (Liner & transition pieces inspection) on three MS5002D turbo compressors. And MS5002D material verification and management for look ahead MJI

20TH Nov – 28th Dec 2013
Nigeria Agip Oil Company, Gas Recycling Plant OB/OB Rivers state, Nigeria
MS3002J (heavy duty gas turbine) Hot Gas Path Inspection (HGPI)

28th March – 4th May 2013
MEGPL & EGLNG, Bioko Island, Equatorial Guniea
LTPI (Liner & transition pieces inspection) on MS5001PA Turbo compressor, MJI (major inspection) on MS5002D Turbo Compressor Train 1 & another MJI (major inspection) on MS5001PA Power generator

30th October – 18th November 2012
Total E & P, NKOSSA offshore platform, Congo Brazzaville
Major Inspection on MS5002C Gas Turbine

28th February – 15th March 2012
Total E & P, Yanga offshore platform, Congo Brazzaville
Combustion Chamber inspection on MS3002J Gas Turbine

August – September 2011
Nigeria Agip Oil Company, Gas Recycling Plant OB/OB Rivers state, Nigeria.
Night shift Lead FSE for Unit 1620A (MS 1002B) Major overhaul/inspection

2- TECHNICAL ADVISOR(MECHANICAL) GSI Nigeria

Employed by **Granite Services International Inc (GSI)** GT Installation & Field Services.
October 2006 to July 2011

PROJECT:

22nd July 2008-2nd March 2009
Nigeria Agip Oil Company, Gas Recycling Plant OB/OB Rivers state, Nigeria.
Lead TA for Unit 530A (MS 3002A) Major overhaul/inspection

2nd June 2008-4th July 2008
Nigeria Agip Oil Company, Gas Recycling Plant OB/OB Rivers state, Nigeria.
Lead TA for Unit 1620B (MS 1002B) Major overhaul/inspection

26th April 2008 – 1st May 2008
Nigeria Agip Oil Company, Gas Recycling Plant Kwale, Delta State, Nigeria.
Lead TA for Unit 470EG-MS 5001PA Combustion Chamber Inspection

23rd Jan 2008 – 18th March 2008
Nigeria Agip Oil Company, Gas Recycling Plant OB/OB Rivers State. Gas turbine scheduled Inspections, Major overhaul and Routine Maintenance (MS1002, MS3002, MS5001, PGT10/2 and PGT5/2 respectively). Unit 540-2A Combustion Chamber Inspection.

23rd Dec 2007 – 16th Jan 2008
Societe Tunisienne D Electricite E Sousse, Tunisia (STEG) Power Plant (MS-9001E GT forced outage inspection). Lead TA on board.

4th Nov 2007 – 5th Dec 2008
Nigeria Agip Oil Company, Gas Recycling Plant OB/OB Rivers state, Nigeria.
Lead TA for Unit 1640C (MS - 3002C) Hot Gas Path Inspection.

28th Aug 2007 – 3rd Oct 2007
Nigeria Agip Oil Company, Gas Recycling Plant OB/OB Rivers State, Nigeria.
Lead TA for: Unit 520-1A (MS – 1002A TURBO COMPRESSOR) Major Inspection/Overhaul. And Unit 540-1B (MS – 1002B TURBO GENERATOR) Hot Gas Path Inspection.

21st May 2007 – 7th July 2007
Baseline Inspection (Storage and Preservation) for Niger Delta Project MS – 9001E Installations, Egbema (Imo State of Nigeria) and Gbarain (Bayelsa State of Nigeria)

16th July 2007 – 17th July 2007
Open Package Inspection for Ihovbor (Edo State of Nigeria) Niger Delta MS – 9001E Installation.

2nd April 2007 – 18th May 2007
Baseline Inspection (Storage and Preservation) for Niger Delta Project MS – 9001E Installations, Sapele (Delta State of Nigeria) and Ihovbor (Edo State of Nigeria)

26th Feb 2007 – 23rd March 2007
Baseline Inspection (Storage and Preservation) for Niger Delta Project MS – 9001E Installations, Calabar (Cross River State of Nigeria)

3- SENIOR MECHANICAL TECHNICIAN

Employed by **ARCO Petrochemical Engineering Nig Ltd,** 42 Adetokunbo Ademola St, Lagos State, Nigeria.
August 1999 to Sept 2006

PROJECT:

Routine Maintenance, Overhaul/Inspection of: GE Gas Turbines (different frames and capacities), Reciprocating & Centrifugal Compressors respectively, at, Nigeria Agip Oil Company Ltd, Gas Recycling Plant, OB/OB Rivers State, Nigeria.

4- MECHANICAL ENGINEER

Employed by **DENUS STEEL PLC**, Epe, Lagos State, Nigeria.
June 1996 to December 1997

PROJECT:

Redesigning of Production Process, Equipment Refurbishment, Installation and Commissioning of Steel Plant.

5- PROJECT ENGINEER

Employed by **MICBAM NIG. LTD**, Sango Otta, Ogun State, Nigeria.
October 1995 to May 1996.

PROJECT:

Welding, Machining and Foundry Processes of mechanical equipment and special project design, Installation and Commissioning. E.g.: -
a. The power generator cooling towers for Cadbury Nig. Plc, Ikeja Lagos State.
b. The extension of Knorr production train of Cadbury Nig. Plc, Ikeja.
And other numerous private projects.

6- MAINTENANCE ENGINEER (NYSC)

Employed by **ALKA-CHEM NIG LTD**, Bauchi State, Nigeria
May 1993 to May 1994

PROJECT:
Maintenance coordination of company fleet of vehicles and water pump (borehole and irrigation system) installations for our clients.
