NOAH VICTOR LAZARUS

Tel: (234) 8063167169, **Email:** noahvictor61@yahoo.com. **Address:** Uyo, Akwa Ibom State.

PROFILE HIGHLIGHTS;

- Possess practical skills in rotating equipment overhauling/maintenance troubleshooting, and an ability to work with multi-cultural teams and with minimal supervision.
- Ability to handle technical report writing/documentation, team building and management, and general operations supervision
- Responsible for keeping machines in good operating conditions and coordinating with other technician teams.
- Efficient at verifying equipment, assigning tasks, performing inspections, supervising repairs, and making sure safety guidelines are being followed.
- Demonstrated expertise in the application of maintenance management strategies and analysis.
- Ability to lead teams to perform business and root cause analyses; use these findings and collaborate with stakeholders to set / revise maintenance procedures, and direction as needed

CORE AREAS OF EXPERTISE

- ✓ Safety & Regulatory Compliance
- ✓ Troubleshooting & Technical Resolution
- ✓ Rotating Equipment Maintenance/Commissioning
- ✓ Project Coordination
- ✓ Permit to Work Proficiency
- ✓ Schematic/P&ID/ Engineering Drawing Proficiency
- ✓ Procedure/OEM Manual Proficiency

PROFESSIONAL EXPERIENCE

GRAFEN INTEGRATED OILFIELD SERVICES LTD, EKET | MECHANICAL TECHNICIAN | 01/2022 –DATE

Job Location: ***Mobil Producing Nigeria Unlimited JVO – Edop production Platform***

- Ensure scheduled and preventative maintenance is performed for optimal performance with organization's objectives and keeping a minimal cost for repairs and downtime.
- Performed inspections and audits to check that operating equipment and facilities are maintained, and monitor the efficiency of plant operation to verify that safe practices are followed.
- Troubleshoot and rectified low pressure fault on portable water system
- Timely rectified faulty four cooler fans preventing the start-up of Injection Gas Compressor due to high temperature.

BENE PROJECTI NIG. LTD, LAGOS | COOLER FANS REVAMP GROUP SUPERVISOR | 2021

Job Location: ***Mobil Producing Nigeria Unlimited JVO – East Area Project *NGL Platform***

- Successfully handled the preparation of Permit to Work documents for the fan task.
- Handled the verification of fan motor Isolation to ensure zero energy and coordinated tool box meeting with the team and ensure the work scope was understood.
- Troubleshoot and carried out inspection of cooler fans and gathered materials for repairs, and replaced fan blades, bad motor sheaves, aligned fan/motor pulleys, installed new belts and got it commissioned. Operation was 100% completed.

AZIMARINE GENERAL SERVICES, IBENO | MECHANICAL TECHNICIAN | 2015 - 2020

Job Location: ***Mobil Producing Nigeria Unlimited JVO – East Area Project *NGL Platform***

- Maintained equipment and supply inventory.
- Performed daily equipment surveillance and vibration monitoring.
- Carried-out scheduled maintenance and break-in repairs on facility critical equipment including Solar® Gas Turbines, RB211 Siemens® Gas Turbines, Essential Generators, Backup Generators, Fire Engines, Air Compressors, Pumps, Turbine Starter Systems and Cooling fans.

- Successfully overhauled and commission of D3512 CAT engine.
- Coordinated with multiple planning and engineering departments to ensure safe and timely completion of new installation, maintenance, and emergency repairs to minimize lost operating time.
- Improved equipment reliability by up to 10% by implementing effective maintenance management system to schedule and execute preventive and predictive maintenance.
- Achieved reduction in maintenance cost, working closely with the other technicians, and maintaining a routine service program for all operating equipment.
- Rectified non starting fault on Ingersoll Rand Instrument Air Compressor due to high intercooler pressure. Fault traced to leaking intercooler fins.
- Installation, alignment and commissioning of NGL product Pump.
- Recommended for taking active step and working beyond regular job expectations for the detect, response and recovery effort on Residual Gas Compressor lube oil cooler fan unusual high vibration, resulting in the prevention of potential NGL product loss of over 15kbd and inherent process safety incident (2019)

EXXONMOBIL TECHNICAL TRAINING CENTRE, EKET | MECHANICAL TECHNICIAN (OJT) | 2013 – 2015

- Introduced to core mechanical, operations, electrical and instrumentation theory and practical.
- Participated in providing timely and lasting solution to equipment breakdown by conducting root cause analysis of mechanical failure as well as unexpected maintenance and operational problems
- Assisted in reducing equipment downtime by 5% by performing routine maintenance inspections on equipment to respond to and identify problems of breakdown in a timely manner
- Performed cost analysis, including preparation of engineering specifications, detailed scope of work and developed drawing for the proposed maintenance.
- Completed the maintenance and repairs of all facility mechanical equipment and components including compressors, pumps, cooling fans and motors, SOLAR® Gas Turbines, LM2500 GE® Gas Turbines, etc at each location.
- Overhauled and rebuild two stage Peerless Pump and commission.
- Successfully installed and function tested new Instrument Air Compressor package at OSO PP.
- Won "Catch of the Week" award for a hazard report on a potentially facility threatening gas leak at EKPE PP.

Job Locations:

- **Bonny River Terminal (ExxonMobil Nigeria Onshore Gas Plant)**
- **OSO PP (ExxonMobil Nigeria Offshore NGL and Condensate Plant)**
- **EKPE PP (ExxonMobil Nigeria Offshore Oil Processing Plant)**
- **EAP (ExxonMobil Nigeria Gas Processing Plant)**
- **Technical Training Centre, Eket**

Other Working Experience Highlights;

- Intern (General Mechanical Workshop), AMCO Engineering Enterprises, Delta State, 2009
- Mechanical Apprentice, Martinez Engineering, Port Harcourt, 2005 - 2007

EDUCATIONAL QUALIFICATIONS AND OTHER CERTIFICATIONS

- **Akwa Ibom State University, Ikot Akpaden.** B.Eng in Mechanical Engineering (2nd Class Upper), 2021
- **Mobil Producing Nigeria Unlimited Technical Training Centre Eket (TTC).** Mechanical Engineering, City & Guilds of London level 4 (HNC), 2015
- **Petroleum Training Institute, Effurun.** Diploma in Mechanical Engineering (Upper Credit), 2011.
- Valid BOSIET Certificate (HUET & CA-EBS) OPITO approved.
- Work Management and Electronic Permit to Work Training Certificate
- Valid DPR Offshore Safety Passport
- Valid Medical fitness certificate.
- Helicopter fire fighting training (HFFT)- API Certified
