## PROFILE SUMMARY

I am a dynamic mechanical engineer that has a wealth of experience in power plant operation and maintenance. Expert in implementing strategies and effective systems solutions to improving organizational performance and safety with proven strength in problem solving, multi-tasking, time management, goal getter and a team player. I am passionate about the energy/oil and gas industry with keen interest in project/onshore/offshore/facilities engineering, operation/maintenance of oil & gas production/processing plant.

## CORE COMPETENCIES

- Project Implementation
- Project Management
- Leadership Skills
- Multitasking
- Disassembly, test and assembly.
- Health, Safety & Environment
- Operations & Maintenance
- Entrepreneur Sense
- Construction/commissioning
- Calibration & Flow Measurement

## SKILLS HIGHLIGHT

- Critical Thinking.
- Multitasking.
- Computer Literacy: Microsoft Office (Word, Excel, Power Point).
- Communication.
- Team Player.

## ACADEMIC QUALIFICATIONS

2015 Yaba College Of Technology,Yaba ,Lagos
Higher National Diploma In Mechanical Engineering [ Power/ Plant Option]

2008 Yaba College Of Technology, Yaba, Lagos
Ordinary National Diploma (Industrial Maintenance Engineering)

2003 Suzan Martins Comprehensive High School
(National Examination Council).

## EMPLOYMENT AND WORK HISTORY

Nov 2020 Till Date : Jmg Nigeria Limited
Position : Power Plant Operator/Engineer

I conduct hourly checks on a 4.5megawatt mitsubishi gas engine power plant,main alternator,genset panel and soundproofing canopy, i also record all technical parameters related to assigned gensets on hourly basis.

I take up IMS responsibilities such as reporting unsafe act,condition or procedure in the work place,participating in fire or emergency drill at work,participating in incident reporting and investigation when necessary and adherence to company policies.

I comply strictly with company processes related with QMS,OHAS & EHS policies by JMG as well as client.

I ensure that the genset maintenance card logsheet is updated by the visiting engineers on every maintenance activity conducted.

I wash and clean the genset externals and internals regularly to keep the gensets and surroundings very neat and clean at all times.

I maintain shift handover and takeover records with date/time and signoff in handover/takeover register provided.

I maintain all the amenities provided by the company such as uniform,personal protective equipment,tools in very good condition.

Feb 2020 - Sep 2020: Junaid Synergy Limited

Position : Power Generation Executive

Accomplishments : I am responsible for Providing Power Generation guide to Head of Engineering and Technical Services department.

I am responsible for administrative coordination and synergy of Power Generation unit and Gas Engineering unit under Engineering Department for effective organizational output.

Supporting Established organizational objectives by developing goals and strategies.

Project Design and planning/Reporting to Head of Engineering.

I am responsible for Monitoring Energy Industry news,trends and developments for opportunities that can be maximized by the company.

Responsible for pre and post generating plant assessment,performance monitoring and evaluation, and generating parts sourcing and assessment.

As part of the Project Planning team i am also jointly responsible for contributing towards the achievement of the company strategic /operational targets and overall business aims.

Mar 2018 - Jan 2020 : Verteville Energy Company Limited

Position : Power Plant Operator/Engineer

Accomplishments: I do daily monitoring,observing and recording of 1.5megawatt mwm/caterpillar gas engine parameters on an hourly basis.

- I troubleshoot engine mechanical faults to ensure smooth operation of asset.
- Periodical sampling of lube oil for analysis.
- I perform periodical oil change ,alternator bearing greasing and valve settings.
- I measure current of the auxillary equipment so as to keep track of its performance.
- I prepare engine daily report,MIS report and trip report if any.
- I start/stop gas generator and other power plant equipment as necessary.
- I carry out pre and post starting checks on the assigned gas engine and associated installation before every operation.

- I properly measure & record initial and final level of diesel inside diesel tank and sign off only the quantity received exactly at site after delivery and update the quantity received in diesel register with every delivery.
- I do a proper book keeping and filing of documents for future references.
- I communicate promptly to the maintenance supervisor when the assigned gas engine is about to get due for routine service.
- During diesel delivery at site, i conduct diesel test using hydrometer provided at site while taking pictures of the test obtaining client/MS approval before commencement of delivery.

Feb 2016 - Feb 2018 Lington & Bernie Consulting (Contract Staff in Eko Electricity Distribution Limited)

Job Function: I was saddled with the responsibility of terminating cables, carrying out straight through joint and working as a linesmate ,working with the protection and testing team for testing for faulty cables and continuity.

July 2016 - Apr 2017 De Genius Olivet Schools, TigboTown, Ota, Ogun State
Position: Assistant Physics & Mathematics Teacher (NYSC)
Job Function: Encouraged students to observe, question, discover and investigate in order to engage them in their learning.
Interacted with each student and helping them solve their problems.

Mar 2009 - Feb 2012 Control Systems International Company Limited
Position: Technician
Job Function: Calibration of electronic and mechanical flow meters by using

- Master meter
- Mobile prover tank and prover tank
- Calibration of truck/tank, aircraft refueller (bowser).
- Preparation of calibration report, certificate etc.

## TRAINING ATTENDED

- Project Management Professional Certificate Issued By Project Management Professional Institute Lagos
- Health, Safety and Environment Certificate [HSE 1, 2] Issued By Project Management Professional Institute Lagos
- Certificate of Participation in Air Conditioning Principles and Application Training Issued By Unilag/Lg Academy
