EXPERIENCE

- **APPLIS VELOSI QATAR (QAFCO PLANT)** *10/11/2021 - Currently working*
  MECHANICAL MAINTAINCE TECHNICIAN
  To service all types of valves,pumps,turbines and other mechanical devices once we receive equipment from plant first we have to note down tag number and find out the problem mentioned from plant report. Then we clean fully the equipment and make clear marking by number or letter punch and measure if any important units and note down before dismantle. Then we start dismantle and again clean completly all parts and inspect each and every parts if any parts need to change discuss with superviser and he will arrange gasket oring and other things. Then we assemble with new gasket packing or orings and if possible for testing we do hydro or pneumatic test and make record and final sent to plant

- **WESCON STORKE (ADNOC SOUR GAS) (3 month shutdown)** *06/01/2021 - 02/03/2021*
  VALVE TECHNICIAN
  To service all types of valves like control valve safety valve and mechanical valves. Mainly fisher masonilan control valves.once valve come to workshop we do pre test check leakge from seat or body or packing and then we mark clearly and measure coupling threads and dismantle and check stem seat cage and all other valve parts and do lapping until mirror finish and check blue mark contact and assemble with new gasket and packing kit and do hydro test as per the class and minor leak is allowed as per cv of the valve.
  Safety valves to service both conventional and bellow type and pilot operated safety valve. Before dismantle check pre test and find out the problem and then relese spring tension and dismantle it completly and check all parts and do lapping and assemble and do testing.

- **ALMEER TECHNICAL SAUDI ARABIA(2 month shutdown)** *27/12/2019 - 24/02/2020*
  CONTROL VALVE TECHNICIAN
  To service only control valves and acutators like fisher masonilan and british type actuator. Once valve we received we note the tag and location and clean it completely and make clear marking punch and we dismantle and check all parts like seat disc cage and stem one by one and if need any machining or welding do it and start lapping. Once lapping finished we do blue mark contact and if it is OK then we assemble with new gasket and packing and do hydro test as per class and sent for painting

- **WEIR OIL AND GAS DUBAI (3 month shutdown)** *14/07/2019 - 10/10/2019*
  VALVE TECHNICIAN
  To assemble api6a type high pressure gate valves sizes like 2×1/4 2×1/16 etc and high pressure ball valves class up to 2500 5000 etc. If new valve all spares come in trolly we have to check part number and arrange it orderly and assemble one by one and new gate new seat and gaskets and finish 15 valves at one time and fix flange as per class and testing 15 number valves at one time and record the testing in a graph sheet and sent report to qc. As per the data sheet we need to test the valve up to how much pressure and testing by gas or water and how much torque all mentioned on it.

- **Gulf energy qatar(qafco plant)(2 month shutdown)** *15/03/2019 - 13/05/2019*
  MECHANICAL TECHNICIAN
  To service all types of valves pumps and other mechanical equipments. To clean mark and dismantle and check all spares if any damage repair or replace and if welding or machining need do it and assemble with new gasket and orings and testing and send to plant. As per api598 all valves fix the flange as per class and do hydro test.

- **Gulf energy qatar(qafco plant)(3 month shutdown)** *22/01/2018 - 24/04/2018*
  MECHANICAL TECHNICIAN
  To service all types of valve and pumps and other mechanical equipment and high pressure hoses to test and change the fittings and to service valves mark dismantle and do fine lapping and check blue mark contact and to assemble with new gasket and packing and fix flange as per class and do hydro test as per api598 chart and sent to plant.several type of nrv valves to dismantle and if possible for lapping do it and testing and electrical motor coupling to measure the position and dismantle by heating etc

- **Sembcorp marine singapore (3 years 7month long term)** *28/06/2013 - 03/01/2017*
  MECHANICAL TECHNICIAN
  To work in mechanical workshop to service steam line and boiler line valves like gate glove ball butterfly and nrv types valves. To open and check all valves at one time and do lapping one by one and make ready gaskets and packings and everything is ok then show to qc and if they give approvel then we start assemble one by one and after finish all valves sent for testing at one time and show to valve inspection team from client and sent to ships to fix it
- **MARUTI SUZUKI INDIA(2YEARS 4 months)** *01/02/2011 - 18/06/2013*
  MECHANICAL TECHNICIAN
  To service all types of suzuki cars to change engine oil,gear oil,brake oil,coolent,suspension check up,wheel balancing,wheel alignment and change wheel bearing etc
