Oum El Djellil, Medea. Algeria

OBJECTIVE

Qualified engineer with over four years of experience as an engineer, civil supervisor, and quality controller. Proven track record of working for both national and international companies in industrial construction, building, and public works

SKILLS

- Project Management
- Quality Control & Assurance
- Site Inspections
- Design Review
- Specification Interpretation
- Proficient in office software: Word, Excel, PowerPoint, AutoCAD

LANGUAGES

- **English**
- **French**
- **Arabic**

EDUCATION

- Master's Degree in Urban Techniques
  University Constantine 3
  2018
- Bachelor's Degree in Urban Techniques and Sustainable Development
  University Constantine 3
  2013-2016
- Baccalaureate Degree in Natural Science and Life
  2013

- **Driver's license category B**
- **Military situation to be accomplished**

WORK EXPERIENCE

CIVIL Supervisor / Civil Quality Control

2019 –2020 **Infrastructure Construction Company (ICC) | Sonatrach**

Project: Realisation in EPC of the electrical supply works of the GSA fields

CIVIL Supervisor / Civil Quality Control

2020-2022 **Larsen And Toubro Hydrocarbon Engineering (LTHE)**

Project: Rehabilitation and Upgrading of the electrical network of the basin Berkine

2023 - Bavtimod Construction | CIVIL Engineer

- Specialized in steel construction and reinforced concrete infrastructure

CIVIL Engineer Planning Departement

2023 **DAEWOO E&C**

Project: Realization of New Town Boughezoul

Key Achievements:

Civil Supervisor

- Supervised and managed diverse civil construction activities, overseeing concrete work, site preparation, building construction, cable and pipe trenching, structural steel installations, and more.
- Collaborated closely with electrical engineers and safety engineers to efficiently coordinate substation shutdowns during various projects.
- Successfully led and executed the rehabilitation work of substations, implementing significant improvements such as false floor and ceiling installations, fire doors, ceramic tile work, and anti-acid and anti-dust paint applications.
- Established effective communication channels with client representatives, third-party inspectors, and subcontractor Civil Supervisors to ensure the timely completion of projects.
- Provided consistent feedback to the Civil Manager and actively contributed to weekly and monthly project meetings.
- Demonstrated an unwavering commitment to safety, contributing to an impressive safety record with zero lost-time incidents (+Man-hours achieved without LTI).

QA/QC Civil Engineer

- Conducted comprehensive inspections of various civil activities, materials, and workmanship to ensure strict compliance with project specifications and industry standards.
- Collaborated closely with clients, third-party organizations, and subcontractors to facilitate inspections and maintain meticulous documentation.
- Prepared detailed inspection reports, ensuring the currency and approval of all accompanying documents.
- Proactively initiated and managed non-conformance reports (NCRs) when necessary, meticulously following up on corrective actions to ensure swift resolution.
- Worked collaboratively with construction, architecture, and engineering departments, as well as other disciplines, to ensure the successful inspection, release, and handover of completed work.
- Conducted informative quality toolbox talks and offered guidance to subcontractor Quality Control Inspectors (QCIs) and construction personnel on optimal work practices and acceptance criteria.
- Actively participated in Health, Safety, and Environment (HSE) activities and played a pivotal role in supporting project milestones with zero lost-time incidents.
- Supervised laboratory activities and meticulously inspected materials, including concrete mix design, temperature, slump, and compression tests.
- Ensured the quality of materials, including grout and epoxy grout, through in-depth analysis and rigorous testing.
- Maintained detailed project logs and records, including Request for Inspection (RFI), Non-Conformance Report (NCR), and Material Approval Request (MAR) logs.

Dear

I am writing to express my strong interest in the civil engineer position at your Company as advertised. With over 4 years of experience as a civil engineer, I am eager to contribute my expertise to your team and contribute to your projects.

Throughout my career, I have had the privilege to work on diverse projects, , which has equipped me with a comprehensive understanding of construction processes, project management, and quality control. My experience spans from working on infrastructure construction to rehabilitation and upgrading projects, allowing me to develop a versatile skill set.

My key strengths include:

- Proficiency in project management, quality assurance, and technical support.
- Proven ability to supervise and coordinate civil activities, ensuring compliance with specifications.
- Strong collaboration skills, demonstrated by effective coordination with cross-functional teams.
- In-depth knowledge of structural engineering principles and practices.
- Proficiency in AutoCAD and ArcGIS for design and analysis tasks.
- Multilingual proficiency in English, French, and Arabic, enabling effective communication in diverse environments.

What excites me most aboutyour Company is your commitment to excellence and innovation in the civil engineering field. I am eager to contribute to your reputation for delivering high-quality projects that meet and exceed client expectations. Moreover, I am impressed by your emphasis on safety and environmental sustainability, values that align with my own professional philosophy.

I am confident that my technical skills, attention to detail, and dedication to continuous improvement make me a strong candidate for the role. I am excited about the opportunity to work with your team and contribute to your Company continued success.

Thank you for considering my application. I would welcome the opportunity to discuss my qualifications further and how my experience aligns with your company's goals. Please find my resume attached for your review.

Sincerely,

OMAR OUSSAMA
