Career Summary

Petroleum Engineer over 14-years' experience in upstream Oil & Gas industry, Work experience includes Onshore & Offshore Production Operations, Well Intervention, Well Testing and Wireline operations. Currently working with **National Energy Services Reunited (NESR).-UAE, Abu Dhabi** as a Senior Field Operations Supervisor

WORK HISTORY

National Energy Services (NESR), Abu Dhabi-UAE 2022-Present
Senior Wellsite Operations Supervisor

SGS Gulf Limited, Abu Dhabi-UAE 2018-2022
Senior Wellsite Field Specialist

Safwan Petroleum Technology, Abu Dhabi-UAE 2013-2017
Senior Wellsite Field Supervisor

China National Logging Corporation (CNLC), Pakistan 2010-2013
Field Engineer

Pakistan Petroleum Limited (PPL), Pakistan 2009-2010
Petroleum Engineer

BGP International, Pakistan 2008-2009
HSE Advisor

EDUCATION

Bachelor of Petroleum and Natural Gas Engineering - 2008
Mehran University of Engineering and Technology Jamshoro, Pakistan

PROFESSIONAL TRAININGS

- IWCF Leve-2-Well Intervention Pressure Control Program
- Work Management System
- Warrior System & Software Operations for cased hole logging
- Basic Offshore Safety Induction & Emergency Training
- Advanced First Aid
- Electronic Permit to Work System
- Basic Fire Fighting
- H2S Safety
- Task Risk Assessment
- Chemical Handling & Awareness
- Authorized Gas Testing
- Safe Lifting Operation
- Data Safety
- Safe Web Browsing
- Phishing & Malware Safety
