31-15 Camps 05 Ain El Bia Oran/ALGERIA

Objective

More 15 years of experience in the Field construction and EPC project. Inspection and control of heavy machinery foundations, steel & structure erection for pipe racks and jetty-Marine works, sub-station buildings & control rooms, materials for approval. Coordination with Third part and authority, review and evaluate the test results for concrete and earthworks, cathodic protection and firewater network. Mechanical completion, punch list coordination, and Handover documentations. I seek challenging opportunities where I can fully use my skills for the success of the organization.

Experience

Air Products

December 2021 - Up today
